Young Song

(215) 272-0954
1700 Hilliard Ct. Ambler, PA 19002

Jr. Frontend Developer

hogusong1@gmail.com
Authorized to work in the US

Recent Projects

Blog App - https://github.com/Hogusong/MEAN-Stack-App
- Created a forum using Angular 6 for users to post text and image content to a shared board
- Set up a backend using ExpressJS and NodeJS to serve content stored in MongoDB and authenticate users
- Deployed frontend as a static page to Amazon S3 and backend using Elastic Beanstalk

Conference App (Mobile) - https://github.com/Hogusong/ng-ConferenceApp
- Redesigned the Ionic Conference App using Angular 6
- Used Firebase and Angular to set up publishing conference events to multiple users
- Deployed mobile application to Amazon S3

Work Experience

Angular, Ionic, and End-to-End Testing Intern

OpenForge LLC - Philadelphia, PA   October 2018 to January 2019

- Set up E2E testing framework for a project management mobile app with Jasmine, Karma, Protractor, & WebDriver
- Introduced lazy loading and WebP to the OpenForge Stencil-based web application to reduce website loading time.
- Updated routing and implemented views in the open source 'ionic-conference-app' - Angular and Ionic-based

Software Engineer Intern

TheoTech - Seattle, WA   February 2018 to May 2018

- Migrated project backend to a RESTful Flask and Python web application, integrated MongoDB
- Migrated frontend to ReactJS and developed in an agile framework using Git as version control

CEO

Z-Zone - Philadelphia, PA   June 2008 to January 2018

- Created a successful, multimillion dollar business importing and wholesaling textile and clothing goods

Skills: JavaScript, HTML, CSS, Angular 6, Ionic, TypeScript, ReactJS with Redux, NodeJS, MongoDB, GraphQL, ExpressJS, Socket.io, Python, Java, Flask, E2E Testing (Protractor, WebDriver, Jasmine, Karma)
